

1. Write a C program to read the value of an integer m and display the value of n is 1 when m is larger than 0, 0 when m is 0 and -1 when m is less than 0.

Test Data :

-5

Expected Output:

The value of n = -1

2. Write a C program to accept the height of a person in centimeters and categorize the person according to their height where height less than 150cm is considered a dwarf, greater than 160cm is considered as tall and a height of 150cm is considered as an average height person.

Test Data :

135

Expected Output:

The person is Dwarf.

3. Write a C program to accept a coordinate point in an XY coordinate system and determine in which quadrant the coordinate point lies.

Test Data :

7 9

Expected Output:

The coordinate point (7,9) lies in the First quadrant.

4. Write a C program to read the temperature in centigrade and display a suitable message according to the temperature state below:

Temp < 0 then Freezing weather

Temp 0-10 then Very Cold weather

Temp 10-20 then Cold weather

Temp 20-30 then Normal in Temp

Temp 30-40 then It's Hot

Temp >=40 then It's Very Hot

Test Data :

42

Expected Output:

It's Very Hot.

5. Write a C program to check whether a triangle is Equilateral, Isosceles, or Scalene.

Test Data :

50 50 60

Expected Output:

This is an isosceles triangle.

6. Write a C program to check whether an alphabet is a vowel or a consonant.

Test Data :

P

Expected Output:

The alphabet is a consonant.

7. Write a C program to calculate profit and loss on a transaction.

Test Data :

Enter buying price: 500

Enter selling price: 300

Expected Output:

Loss amount: 200

8. Write a program in C to read any Month Number in an integer and display the number of days for this month.

Test Data :

7

Expected Output :

The month of July has 31 days.

8. Write a program in C to convert temperature from Fahrenheit to Celsius and Celsius to Fahrenheit.

Test Data :

Press c to convert the temperature from Fahrenheit to Celsius.

Press f to convert temperature from Celsius to Fahrenheit.

Enter your choice (c, f): f

Enter temperature in Celsius: 37

Expected Output :

Temperature in Fahrenheit: 98.60
